

I am strongly in favor of the current NJ Do Not Call regulations. They should not be weakened for ANY reasons. How are my rights and freedoms as an individual being protected? Why should I not have the right to prevent unsolicited calls of ANY kind at my choosing? I transfer my home phone to my cell a significant portion of the time. Every call is charged to both lines (transfer & minutes at home and minutes on cell). Therefore, every time call to my home number, solicited or not, cost me time AND money.

Stop the maddness and leave the NJ law along.
